CONTENTS

VOLUME 46

Balázs, Katherine, Approximation by Bernstein type rational functions on the real axis 195
De La Rosa, B. and *Wiegandt, R.*, Characterizations of the Brown—McCoy radical 129
Engels, W., On the characterization of the dyadic derivative 47
Erdős, Péter L. and *Győri, E.*, Any four independent edges of a 4-connected graph are contained in a circuit 311
Evans, M. J. and *Humke, P. D.*, A pathological approximately smooth function 211
Facchini, A., Non-fissile rings with mixed additive group 71
Gonska, H. and *Hinnemann, E.*, Punktweise Abschätzungen zur Approximation durch algebraische Polynome 243
Günttner, R., On an interpolation process 33
Győri, E. and *Erdős, Péter L.*, Any four independent edges of a 4-connected graph are contained in a circuit 311
He Zelin, General linear summation of the Vilenkin—Fourier series 285
Hinnemann, E. and *Gonska, H.*, Punktweise Abschätzungen zur Approximation durch algebraische Polynome 243
Huggins, R. M., A strong invariance principle for reverse martingales 93
Humke, P. D. and *Evans, M. J.*, A pathological approximately smooth function 211
Исматуллаев, Ш. А. и *Йо, И.*, Асимптотический анализ распределения статистики Диксона 133
Jakubowski, J., Structural theorems for multiplicative systems of functions 111
Janković, D. S., A note on mappings of extremally disconnected spaces 83
Йо, И. и *Исматуллаев, Ш. А.*, Асимптотический анализ распределения статистики Диксона 133
Joó, I., Estimation of the Green function of the singular Schrödinger operator 275
Jothilingam, P., Generalization of Eisenstein's congruence 265
Kakol, J., On countable codimensional subspaces in Ultra-(DF) spaces 239
Kaya, A. and *Kaya, K.*, Another generalization of a theorem of A. Kertész 81
Kaya, K. and *Kaya, A.*, Another generalization of a theorem of A. Kertész 81
Kinukawa, M., Integrability of Walsh series 57
Kita, H., Almost everywhere convergence of orthogonal series 73
Komornik, V., Lower estimates for the eigenfunctions of a linear differential operator 189
Komornik, V., On the control of instable systems 301
Kowalski, M. A., Representations of inner products in the space of polynomials 101
Kutkut, M., Weak closure of the unitary orbit of contractions 255
Matolcsy, K., Syntopogeneous spaces with preoder. V (Extensions) 3
Matolcsy, K., Equinormality characterizes the compactness 227

Moór, A., Über reell-unitäre Finsler—Otsukische Räume 173
Perić, V., A note on the nilradical N of a ring R and a subdirect sum representation of the ring R/N 233
Pintz, J. and *Salerno, S.*, Accumulation theorems for primes in arithmetic progressions 151
Riddle, M. L., The bilinear product category 19
Salerno, S. and *Pintz, J.*, Accumulation theorems for primes in arithmetic progressions 151
Sychowicz, A., On the embedding of finite rings into matrices 269
Simon, P., (L^1, H)-type estimations for some operators with respect to the Walsh—Paley system 307
Szalay, I., On the Banach spaces of strongly convergent trigonometric series 39
Szeto, G. and *Wong, Y.-F.*, A characterization of separable polynomials over a ring 67
Szilasi, J., On the curvature and integrability of horizontal maps 183
Visonhaler, C. and *Wickless, W.*, Balanced projective and cobalanced injective torsion free groups of finite ranks 217
Wickless, W. and *Vinsonhaler, C.*, Balanced projective and cobalanced injective torsion free groups of finite rank 217
Wiegandt, R. and *De La Rosa, B.*, Characterizations of the Brown—McCoy radical 129
Wills, J. M., On the density of finite packings 205
Wong, Y.-F. and *Szeto, G.*, A characterization of separable polynomials over a ring 67
Zamfirescu, T., Convex curves in gear 297
